Professional experience

Apr 2021 – Present   **Global Desktop Architect – PwC**

I am currently developing PowerShell scripts that are being delivered to Windows Endpoints (via Workspace ONE) in order to address issues and improve end user experience.

Sep 2016 - Apr 2021   **Senior Service Design Consultant – Oracle Romania**

Worked in an Agile team to design, develop and maintain the scripts that were used to provide Oracle Employees with a self-service Automated Windows OS Endpoint Installation.

Technologies used:

VBScript, Auto IT, PowerShell, HTML/CSS, JavaScript, NodeJS, Agile, Electron Framework, Windows 10, GitLab, CHEF, Workspace ONE.

Oct 2010 – Aug 2016   **IT Field Support Engineer - Connections Consult**

In this role I provided Level 2 IT Support for OMV-Petrom employees.

Technologies Used:

MS Outlook, Windows 7, BMC Remedy Ticketing

Education

2005 - 2008   **Bachelor's degree – University of Bucharest**
Faculty of Mathematics and Computer Science | Bucharest

Certifications

Certified SAFe 4 Agilist acquired on
JANUARY 2019

Certified SAFe 4 Practitioner acquired on
JUNE 2019

MCSA: Windows 10
acquired on Oct 2018

Trainings

JavaScript – CodeCademy.com
C# - CodeCademy.com
Python – MITOpenCourseWare.com
Chef Essentials for Windows

Projects

Oracle Open World 2019 @ San Francisco

Attended the OOW'19 as staff, member of the Employee Compute Team.
Before the event, I was assigned the task to develop the Windows 10 Core image that was deployed on over 1000 machines used at the show. During the event I was tasked with developing a CHEF recipe (in Ruby) for delivering a critical patch to systems that required it.

OBI (Oracle Base Image) New UX

I worked in refactoring the Front End of a Self-Service Windows Installation Application. I had to recode the front-end to make It look like the UX designs. The application used HTML/CSS rendered in HTA's and VBScript & JavaScript to manipulate the DOM. The Complexity of the Project was increased because at the same time the Application had to be updated to include OAuth Authentication and multiple API queries.

Skills

Problem solving, Doing my own research,

Foreign languages

English - Advanced

Hobbies

Learning about Computer & Technology, tinkering with my Raspberry PI, Coding.
